BOOKS AND INFORMATION ON POLISH HISTORY AND CULTURE
General History of Poland

Patrice Dabrowski, *Poland: The First Thousand Years* (2014) Avoiding academic prose yet precise, this sweeping overview of the history of Poland into the 21st century is engagingly written but geared toward more scholarly audiences. Excellent source of knowledge about outstanding individuals, major turning points, and origins of such memorable mottos as "for our freedom and yours" which reverberated through the long history of struggles for Poland's independence and freedom during the 19th and 20th centuries.

Norman Davies, *God's Playground: A History of Poland* (several editions between 1981 and 2005) The first of the "modern" studies of Poland, this detailed history in two volumes (*Volume 1: The origins to 1795* and *Volume 2: 1795 to the present*) is also widely viewed as one of the best English-language works on the subject. Davies is widely known as a prolific writer and an expert on Polish and European history.

Norman Davies, *Europe: A History* (1995) A highly innovative work that gives proper attention to Poland’s place in European history. From the review section of Good Reads website: "...histories should neither be told as stories or as simply a collection of facts, but something in between: Davies does it to near perfection. The writing is smooth and easily understandable for all."

Adam Zamoyski, *The Polish Way: A Thousand Year History of the Poles and Their Culture* (1993 and later editions) Masterly and captivating work that presents Poland’s history with a literary slant and an eye for the audience with prior knowledge of the subject. The book is richly illustrated and includes some maps and a bibliography. Adam Zamoyski has also authored other valued works on Poland (e.g. *The Last Kingdom of Poland, Holy Madness, Warsaw 1920 - Lenin's Failed Conquest of Europe, The Forgotten Few: The Polish Air Force in World War II*) as well as biographies of Frederic Chopin and Ignacy Jan Paderewski.
Polish-American History

Alex Storozynski, *The Peasant Prince: Thaddeus Kosciuszko and the Age of Revolution* (2010) A great read about the national hero of two nations. From the reviews on the Amazon website: "... one of the most entertaining, fascinating, and comprehensive nonfiction personal histories I have ever read. It reads as if it was made for the silver screen," and "While it should be mandatory reading for people with interests in Poland, it should also be mandatory for anyone interested in freedom."

Piotr Wandycz, *The United States and Poland* (1980) An outstanding study of the history of relations between Poland and the United States over the centuries. It is also the very first significant book that brings Polish Americans and Polonia (Polish community in America) into this story.

James Pula (editor), *The Polish American Encyclopedia* (2011) The very best single volume detailing the story of the Polish migration and settlement experience in America. It covers the ties between Polonia and Poland and the people who are key to this story. The book belongs in every library in the United States and in the home of every Polish American who is interested in learning more about his or her heritage.

Poland in World War II

A clear and comprehensive discussion of the place of Poland in this conflict. The author published several other useful books including works on the role of Polish mathematicians in breaking the Nazi German “Enigma” machine code before World War II and on the resistance movement in the German concentration camp in Auschwitz.

An unmatched synthesis of Poland’s experience in World War II. The author deftly integrates operational analysis with complex internal politics of Poland’s armed forces in exile. Her account of the Polish Resistance and the 1944 Warsaw Uprising is excellent; and her treatment of Polish-Jewish relations is well-balanced.

Kenneth Koskodan, *No Greater Ally: The Untold Story of Poland’s Forces in World War II* (2011)
From the Amazon website: "The story of millions of young men and women who gave everything for freedom and in the final victory lost all. In a cruel twist of history, the monumental struggles of an entire nation have been largely forgotten, and even intentionally obscured."

Richard Lukas, *Forgotten Holocaust: The Poles under German Occupation 1939-1944* (2017) If you were raised on the belief that only Jews suffered at the hands of the Nazis, you are in for a shock in reading this thorough account of the barbaric murder of 3 million Polish gentiles by the Germans during World War II as well as the cultural genocide of Poland (the systematic German practice of destroying any traces of Polish culture). The book also includes the story of ŻEGOTA, the underground organization that helped to save thousands of Jews, and an annotated list of Poles executed by Germans for helping the Jews.

Richard Lukas, *Out of the Inferno: Poles Remember the Holocaust* (1989) An anthology of gripping recollections of 60 Poles who survived the atrocities of German occupation of Poland in World War II. Many stories focus on participation in resistance and/or efforts to help/ save Jewish countrymen - even though German occupiers punished them by death to the helpers and their families.

Miscellaneous Topics

Piotr Wandycz, **The Lands of Partitioned Poland, 1795-1918 (1974)** A highly useful study of the Polish lands under foreign rule from the end of the 18th century until 1918. It makes interesting reading for Polish Americans who wish to learn more about their immigrant ancestors’ origins and the conditions which led them to leave for America.

Peter Hetherington, **Unvanquished: Joseph Pilsudski, Resurrected Poland and the Struggle for Eastern Europe (2014)** This work expertly combines biography (Pilsudski lived from 1867 to 1935) with the discussion of the larger story of Poland’s political experience up to World War II. Pilsudski was arguably the most important of the three main statesmen (Ignacy Paderewski and Roman Dmowski are the others) playing the leading roles in the resurrection of an independent Polish state in 1918, after 123 years under foreign domination.

Adam Zamoyski, **Paderewski (1982)** A captivating biography of the cherished pianist and composer using his worldwide fame to promote the idea of an independent Poland. He is widely credited for his role in the U.S president including the creation of Polish sovereign statehood as one of the prerequisite peace conditions (*The Fourteen Points*) for ending the World War I. While representing Poland at the Paris Peace Conference (1919), Paderewski also served as Poland’s Prime Minister and its Minister of Foreign Affairs.

Piotr Wandycz, **The Price of Freedom (1992)** History of east central Europe countries that became free of Soviet domination after 1989 (Poland, Hungary, Slovakia and the Czech Republic). Despite obvious differences, these countries remain connected by a certain "similarity of fate" and bonds forged under the rule of the Jagiellonian dynasty kings reigning between the 14th and 16th centuries.

M.B. Biskupski, **Hollywood's War with Poland, 1939-1945 (2010)** An indispensable work discussing an important question: Why has the story of Poland (and Polish Americans) received so little or no constructive attention in Hollywood motion pictures? With a persuasive explanation, this book tackles the problem of Poland’s low profile and misrepresentation in mass media.

**Other notable historians and authors**

Marian Kamil Dziewanowski - outstanding historian of Poland, Russia and modern Central Europe.

Jan Nowak, Jan Karski, and Stefan Korboński - three post World War II émigrés and authors of outstanding works on Polish themes.

Neal Pease - award winning historian of the Catholic church in 20th century Poland.
**Adam Mickiewicz (1798-1855)**

Widely regarded as Poland's National Poet, Mickiewicz wrote during Poland's Romantic Period. Known chiefly for the poetic drama "Dziady" (Forefathers' Eve) and the national epic poem "Pan Tadeusz: The Last Foray in Lithuania," described on the Amazon website as "a towering achievement of European literature." His poems read beautifully in Polish but language and metering tend to dull the translations in English. Hopefully, this changes with a new translation of "Pan Tadeusz" by Bill Johnston, the award-winning translator of Polish literature. The book is scheduled for release on September 18, 2018. In the meantime, and if you don't read Polish, read the poet's acclaimed biography "Adam Mickiewicz, The Life of a Romantic" by Roman Koropecyj (2008).

**Henryk Sienkiewicz (1846-1916)**

Winner of the 1905 Nobel Prize in Literature, Henryk Sienkiewicz is one of Poland’s finest and most prolific authors known for his historical novels. The immense popularity he enjoyed during his lifetime continues to this day in Poland and abroad. He gained the fame internationally with *Quo Vadis*, a book about early Christianity in Rome. His other great masterwork is *The Trilogy*, translated by the Polish American novelist W.S. Kuniczak. In dramatic, even thrilling fashion, its three volumes entitled *With Fire and Sword*, *The Deluge* and *Fire in the Steppe* cover the saga of the wars fought by the Polish-Lithuanian Commonwealth in the 17th century.

**Zbigniew Herbert (1924-1998)**

With 2018 declared as the Year of Herbert by the Polish Senate, a tribute is paid to one of the greatest and most translated Polish and European writers of poems, essays and drama of the 20th century. In the opinion of many, he deserved a Nobel Prize for his work focused on human dignity under assault in the chaos of oppressive regimes. Adam Zagajewski's short study "Zbigniew Herbert, 1924-1998" with selected poems (some translated by Czeslaw Milosz) and essays is a good starting point to become familiar with one of the most admired and respected voices associated with Poland.

Polish Religious Figures

Saint Maximilian Kolbe (1894-1941) Patricia Treece's book "A Man for Others, Maximilian Kolbe, Saint of Auschwitz in the Words of Those Who Knew Him" is the best biography of the "martyr of charity" who gave his life for another prisoner at the German concentration camp at Auschwitz. With doctorates in philosophy and theology, he was a simple and unassuming man who continued his pastoral work in the midst of horrors of Auschwitz. His inspiring story is told in the word of those who personally knew this scholar, publisher and priest.

Blessed Mary Angela Truszkowska (1825-1899) Foundress of the Felician Sisters (Congregation of Sisters of St. Felix of Cantalice Third Order Regular of St. Francis of Assisi). This order, founded in Warsaw in 1855, is dedicated to teaching, caring for and serving those in need (sick, homeless and abandoned). Since the first five Felician sisters arrived to Wisconsin in 1874 and worked primarily with Polish immigrants, the order's presence increased dramatically in the world. Currently about 1,800 Felician sisters serve various communities across the United States, Canada, Europe and South America.

Saint Maria Faustina Kowalska (1905-1938) Known as "the apostle of Divine Mercy", she captured in her "Diary of Saint Maria Faustina Kowalska: Divine Mercy in My Soul" the essence of God's Divine Mercy revealed to her during prayers. In tribute to her role in bringing the Divine Mercy devotion to the Church, Pope Francis entrusted the Holy Year 2016 to Saint Faustina and made it the Jubilee of Mercy. Along with Saint John Paul II, a passionate devotee of Divine Mercy, she was a patron saint of 2016 World Youth Day (WYD) in Kraków. Millions of 2016 WYD participants took home St. Faustina's message with the event's theme song "Blessed are the merciful, for they will receive mercy."

Saint John Paul II (1920-2005) "Witness to Hope: The Biography of Pope John Paul II" by George Weigel is the authoritative portrayal of a leader whose religious convictions changed the course of history. The story of Karol Wojtyla begins in a small town in Austria-controlled Poland. It takes him through his coming of age in World War II, where he became a priest and resisted the Nazis through acting and the writing of plays promoting Polish culture. Later Wojtyla defined the theological line of battle with communism for the soul of Poland and for all those living under oppressive rule elsewhere.

Saint Stanislaus Kostka (1550-1568) This patron saint of youth, young students and "holy disobedience" was canonized in 1726. Born into Polish nobility, he disobeyed his parents and walked 500 miles from Vienna to Rome to become a Jesuit. He entered the novitiate at the age of 17 but died just 10 months later. Many parishes, seminaries and schools all over the world are named after this young saint. Among them, the St. Stanislaus Kostka church in Chicago is revered as the 'mother church' of all Polish churches in the United States, while another historical church of St. Stanislaus Kostka in Winona, Minnesota had recently elevated its status to the minor basilica (2011).

**Rynek Underground** - state of the art exhibit situated underneath the Kraków's Sukiennice, the Renaissance Cloth Hall, (a central point of the main market square declared as one of the first UNESCO World Heritage Sites declared in 1978), Above the ground level merchant space, the hall houses a gallery of the 19-th century Polish art. The underground museum features remains of medieval constructions, workshops and aqueducts as well as hundreds of holograms and 3D models truthfully recreating the atmosphere of medieval Kraków.

**Ulama Family Museum of Poles Saving Jews in World War II** (Markowa, Podkarpackie) - tells the story of Joseph Ulma, his pregnant wife and their six children ranging in age from 2 to 8, all executed by Germans when they discovered that the family was harboring Jews on their farm. What happened to the Ulma family illustrates the larger picture of over 1,000 Poles killed in the Podkarpackie region for helping and sheltering the area Jews. Thousands of similar atrocities have been documented in other parts of Poland.
Polish Music

Fredrick Chopin (1810-1849) Drawing from the folk music of Poland, Chopin’s compositions introduced Mazurkas and Polonaises to the ballrooms and salons of Europe, and expressed his Polish identity. Today, a pianist’s merit is often judged by his or her mastery of Chopin’s music. Artistically he is the giant of Polish music. Adam Zamoyski’s Chopin, Prince of Romantics (2011) is the best biography of Chopin to date.

Stanislaw Moniuszko (1819-1879) Conductor, teacher and composer inspired by folk and patriotic music of Poland, Moniuszko is called the Father of the Polish National Opera.

Ignacy Paderewski (1860-1941) First an internationally renowned concert pianist and composer, Paderewski later became the newly independent Poland’s first Prime Minister and Foreign Minister in 1919 (see p. 5 of this brochure for notes on Zamoyski’s excellent biography of Paderewski).

Other noted composers include Karol Kurpiński (1785-1857), Maria Agata Szymanowska (1789-1831), Henryk Wieniawski (1835-1880) and his younger brother Józef Wieniawski (1837-1912), viewed as one of Europe’s finest musicians of his time.

Karol Szymanowski (1882-1937) The most celebrated and internationally recognized Polish composer of the early 20th century. His diverse compositions included symphonies, ballets, operas, and numerous orchestral and instrumental works that continue to be performed by the most celebrated soloists, choirs and orchestras in the world.

Grazyna Bacewicz (1909-1969) A virtuoso violinist, she was one of the most gifted women composers of the 20th century and the second to have achieved national and international recognition, with Maria Szymanowska being the first in the early 19th century.

The newest crop of world-famous classical composers from Poland include Witold Lutosławski (1913-1994), Henryk Górecki (1933-2010), Krzysztof Penderecki (born 1933) and Wojciech Kilar (1932-2013), who was very successful also in composing film music. His best known and award-winning film scores were written for Francis Ford Coppola’s Bram Stoker’s Dracula (1992) and Roman Polanski’s The Pianist (2002). From Poland comes also a number of internationally acclaimed jazz musicians including Krzysztof Komeda, Tomasz Stańko, Włodek Pawlik, Adam Makowicz, Leszek Możdżer and Michał Urbaniak.

Special Note: In the case of one artist being the inspiration for another; Korczyk Ziolkowski sculpted a marble bust of Ignacy Paderewski and won first place in the sculpture competition at the 1939 New York World’s Fair. This award drew him to the attention of Lakota Sioux Chiefs who asked Ziolkowski to create a sculpture of Crazy Horse in the Black Hills of South Dakota. This work begun in 1947 will take several more generations to complete. When finished, it will be the largest sculpture in the world.

Dances of Poland

National dances of Poland have strong roots in folk dances, described expertly in the book *Polish Folk Dances and Songs: Step by Step Guide* by Milwaukee’s own Ada Dziewanowska, who was the Artistic Director and Choreographer of the Syrena Polish Folk Dance Ensemble of Milwaukee.

Five dances are historically recognized as Poland’s national dances including the **Polonez (Polonaise)**, **Mazur (Mazurka)**, **Krakowiak**, **Oberek** and **Kujawiak**. Contrary to popular beliefs, the Polka is not one of them (it originated in Bohemia), although its name is derived from the word meaning a Polish female.

The stately **Polonez (Polonaise)** is performed at a walking pace to its own style of music. It originated as the folk dance called "pacer" or "walker" but took on its formal identity after it was introduced to the French royal court in the 17th century. The dance quickly became popular on other European courts and many of the world’s top composers wrote music in the Polonaise style. To name a few, they included Johann Sebastian Bach, Georg Philipp Telemann, Wolfgang Amadeus Mozart, and of course, Frédéric Chopin.

**Mazur (Mazurka)** is a lively dance that probably came from the Mazowsze region of east-central Poland and transitioned into the stylized dance that gained popularity around the world. In Poland it is done either in the form close to its folk roots or in the stylized form exemplified by two mazurkas from Stanisław Moniuszko’s operas *Halka* and *The Haunted Manor (Straszny Dwór)*. In a variety of styles and tempos, the dance is still revered in Cape Verde Islands, Cuba, Curacao, France, Philippines and Portugal. Its slower versions remain popular in Belgium, Netherlands, Brazil and French Carribbeans. In classical music, the best known are the 69 mazurkas of Frédéric Chopin, while the ballet lovers enjoy mazurkas from Léo Delibes' *Coppélia* and Tchaikovsky's *Swan Lake, Eugene Onegin* and *Sleeping Beauty*.

**Krakowiak** is also fast paced but in contrast to the polonez and mazurka, it came from the Kraków region in south-central Poland. It is a syncopated dance done in moving group formations (as pictured to the left). It has also some renditions in Chopin's music but the popularity it once enjoyed in ballrooms of Vienna and Paris has since waned.

The fastest of Polish national dances is **Oberek**, performed with constant turns and many jumps and lifts. On the other hand **kujawiak** is the slowest of Polish dances. It’s name derives from Kujawy, the region of its origin located just west of Mazowsze, where oberek and mazurka come from.

Scores of other dances are enjoyed in Poland but most of them are localized to specific regions (for example, the highlander dances from Tatra Mountains or Kashubian dances from north-central Poland).
