Sometimes tasty potato and dumpling preparations keep families from going completely mad in the face of insane conditions like having their country invaded, followed by Soviet annexation of parts of the motherland, and ultimately dire internal strife culminating in the declaration of martial law in 1981. SOLIDARITY EXHIBIT July 3-July 24, 2012 UW-Madison Memorial Library 728 State St

Together with the Polish Heritage Club - Madison, CREECA is pleased to announce that a unique exhibition of historical images documenting the Solidarity movement in Poland will be on display in the main lobby of Memorial Library on the University of Wisconsin-Madison campus from July 3-July 24, 2012. Admission is free, and visitors to the University of Wisconsin-Madison may acquire a library day pass on site.

"The Phenomenon of 'Solidarity': Pictures from the History of Poland 1980-1981," organized by the Institute of National Remembrance in Warsaw, Poland, commemorates the 30th anniversary of the founding of the movement and highlights formative moments in its history, such as the strikes of August 1980 and the enforcement of Martial Law in December of 1981.

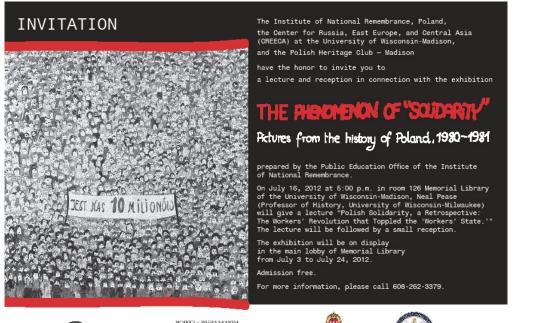

In connection with the exhibition, on Monday, July 16, at 5:00 p.m. in room 126 of Memorial Library, Neal Pease, Professor of History at UW-Milwaukee, will give a public lecture: "Polish Solidarity, a Retrospective: The Workers' Revolution that Toppled the 'Workers' State." At this event, members of the Polish Heritage Club (PHC) who were eyewitnesses to the Solidarity movement will also share their recollections of that tumultuous era. A light reception, sponsored by the PHC, will follow the lecture and discussion.

Since summer 2011, the traveling exhibition has been shown at universities, government institutions, and foundations throughout the US and Canada. Madison, Wisconsin will be its final North American stop before it returns to Poland in August 2012. The Center for Russia, East Europe, and Central Asia (CREECA) at the University of Wisconsin-Madison and the Polish Heritage Club - Madison are sponsoring the Madison showing.

The photographs offer a new perspective on the path leading to the creation of the Solidarity Trade Union, and provide an insight into the Union's relations with the communist regime, as well as the prevailing social sentiment towards the movement amidst pivotal political, social, and economic developments in Poland.

"The exhibition in Madison on the Solidarity movement is very timely," notes CREECA director Yoshiko M. Herrera. "The recent mass protests and government turnovers in the Middle East have been compared to 1989 in Eastern Europe, and one of the leading political movements taking a stand against authoritarianism and the erosion of civil liberties in Russia today calls itself "Solidarnost," taking its name directly from the Solidarity movement in Poland. The Phenomenon of 'Solidarity' will undoubtedly enrich our understanding not only of Poland's extraordinary history and society but also of other important unfolding events around the world." We invite all to join us at the exhibition (July 3-24) and at the special lecture and reception on July 16!

For more information on this and other CREECA events, please call 608-262-3379 or send an email to info@creeca.wisc.edu. For info. on accessing the exhibition at Memorial Library, please visit library's website: memorial.library.wisc.edu or call 608-262-3193.

POLAND by Charlie Czaplewski

Poland is on the continent of Europe. It is the 7th largest country in Europe. Poland has mountains on the southern side. The Baltic Sea makes up Poland's northern border. Russia, Lithuania, Belarus and the Ukraine border on the east. Slovakia and the Czech Republic border on the south. Germany is on the western border. Poland has 9,000 lakes. There are more lakes in Poland than rivers.

There are 16 states in Poland. There are 379 counties or <u>powiat</u> (pronounced *povyat*) in Poland. I found a website that tracks genealogy of people from Poland by their last name. I did my interview with Marie Wrona and was able to find the exact counties that the Wrona family came from in Poland.

The capital of Poland is Warsaw, (pronounced Vashava). Warsaw is the largest city in Poland. It is located in the center of the country. Its population is 1.7 million making it the 10th most populous city in Europe. Poland has a population of 38 million.

Polish is the official language of Poland. There are 14 other languages spoken in Poland. Polish is a Slavic language and is similar to Russian and Ukrainian. There are 32 letters in the Polish alphabet: 9 vowels and 23 consonants. My last name, "Czaplewski" is pronounced (Cha-plev-skee).

Poland is a democratic republic with a Prime Minister as the head of government and two Houses (the Sijm and the Senate). The voting age is 18.

In May 2009, Poland's mandatory-military changed to a volunteer-military. Both men and women serve. There are 65,000 active troops in the Polish Army. The Navy has 14,300 and the Air Force has 26,126.

Poland played a key role in World War II. The Invasion of Poland began on September 1st and ended a month later on October 6th, 1939 with Germany and the Soviet Union divided the all of Poland. The German Nazis controlled Poland until 1945. There were 430 different kinds of camps spread across the entire country, including extermination camps, concentration camps, labor, and POW camps. A wellknown death camp is Auschwitz (pronounced (OWSH-vits). Approximately 5.7 million Poles died in WWII. Soccer is Poland's favorite sport. It is as popular as American football. February 3rd, 2012 Poland completed construction of the new Warsaw National Stadium which cost 1.5 billion US dollars. Ice hockey and fishing are also popular.

Polish foods are different than American foods. Some traditional Polish foods are bigos (meat stew), galumpki (cabbage leaves stuffed with meat and rice), golonka (fresh ham and horse-radish), pierogi (dumplings), borscht (beet soup), sausages and babka (pound cake). My grandmother still prepares a traditional Polish meal every Sunday after church.

Poland has six seasons. They have an early cool spring and later spring which is warmer. Summer in Poland is the same as Wisconsin's - lots of rain and sunshine. They have two autumn seasons too - one is more sunny and warm, and the other is more foggy and humid. Poland's winter is the same as ours, cold and lots of snow.

POLISH AREA "Wisconsin's significant Polish population began arriving in the late nineteenth century. Many found employment in the cities. However, farm communities around Pulaski and Stevens Point soon became solidly Polish.

Kruza House Garden (1900) In the kitchen garden flavorful beds of produce include cabbages, caraway, celeriac and kohlrabi, while petunias weave their way through potatoes. Rosemary and myrtle, long associated with Polish wedding traditions, join flowers in a small garden along the path to the home's front door."

Kruza House 1900 Hofa Park (Shawano County) – 1884. "Built of pieces of stovewood laid in a bed of motar, the structure sheltered an elderly immigrant couple. An attached room held their chickens. The Kaczorowski Outhouse was originally located on the neighboring Hofa Park farmstead. Built by a Polish farmer for his aging in-laws, the Kruza House stood within shouting distance of the larger farm-house Barbara and August Kruza had shared with their daughter's family. The house provided the elderly couple with privacy and a sense of independence, but with the security of having family nearby. Built circa 1884 in Shawano Co. the house is restored to its 1900 appearance. It embodies two distinctive European stylistic influences: its walls are built of stove-wood-length logs embedded in mortar; animals & the family were sheltered in separate rooms."

Every year about this time, my step-mother Peggy and I would make the trek up to the Green Bay area to load up on plants for our containers. Jan made it more than a shopping trip -it was an event! We would wander the greenhouse with him, learning eagerly about the newest, the best and his favorites in the plant world. We'd share his great Polish cooking with his staff and friends, all of whom became practically family over the years. Jan was a very large part of my life and I miss him more with each passing day. ... We will share some of Jan's recipes on our website, including my favorite, White Borscht. His Versatones recorded over 60 albums and made over 6,000 appearances, including trips to Austria, Canada, France, Mexico & Poland. Genealogy Corner by Joanna Pasowicz

Hello once again. I am planning a trip to St. Adalbert's Cemetery in Chicago to take photos of headstones. I may also get the opportunity to do rubbings, as my niece's son-in-law can get the proper paper to use. While driving through the cemetery a few months ago, I was reading the Monuments as we passed and found many names of family on them. I never noticed that before, as I didn't have all the family names at that time. It will make for an interesting trip, as the area is where my Grandparents and sister and daughter are interred. So I can imagine that some of them can be relatives. It will give me a whole new way to trace the family. Good hunting for your families. *Joanna*
